

# AVP

Fully Automatic Puncher

**AVP** is a **fully automatic** for PVC/PU belts finger punching. Designed for **high performance** works, it ensures **maximum cutting precision** thanks to the head driven by servomotor

**Highest protection.** The **integrated safety system** stops the process if safety doors are opened and provides a minimum pressure to the clamping bars till they are closed.

AVP **optimizes the work** incorporating the possibility to save and load recipes, control panels on both sides and **quick-change** of the knives.

It includes a key feature: the ability to **cross cut** the belt.
