

# ULTRAHOMP

Ensuring continuous operations in a comfortable and safe manner.

For further information & technical data, visit [www.fonmar.com](http://www.fonmar.com)

Lifting up the upper part of the vulcanizer, even with the **widest belts**, will never be an issue again.

**Easy handling** for a single operator. From the **two-hand control** it is possible to lift up and put down the upper part, supply the air to the pressure bags and also lock the automatics bolts.

**Top safety** including: fall-prevention system; pressure system that avoids unforeseen inflation; and anti-trapping system.

**Continuous cycles** without a break due to the avant-gard design, and the cooling and air purge systems.

## MAIN FEATURES:

- Automatic lifting and blockage system.
- Easy handling by one single operator.
- Pressure through airbag up to 7 Bar.
- Platen surface up to 4175x1000.
- Maximum safety.
- Ongoing works without breaks.

Maximum safety.

Fully automatic locking system.

Easy handling by one single operator.

Ongoing works without breaks.
